Appendix A. Certificate numbers and verification 20

1. Introduction

The HAAB Training Management Platform is where you manage your training with HAAB Aviation Consultancy Services: which programmes you are on, when and where classes are held, your learning material, your assessments, your results and your certificates. It works on a computer and on a phone. This manual is for **trainees**.

1.1 What the platform does for you

- **Your programmes:** see the programmes you are registered on, with dates, venue and instructor, and register for others that are open.
- **Learning materials:** read, watch or download the material for your course and track your progress.
- **Check-in:** record your own attendance by scanning the QR code on the classroom screen.
- **Assessments:** sit timed online assessments and see your answers saved as you go.
- **Results:** see your result once HAAB has finalised and released it.
- **Certificates:** download your certificate and show anyone a QR code that proves it is genuine.
- **Documents:** keep your own documents, such as identification, with HAAB.

1.2 What you can see

You see **only your own** records. Nobody else on the platform can see your results, and you cannot see anyone else's. Your menu shows **My training**, **Calendar**, **Check in**, **Assessments**, **Results**, **Certificates** and **Documents**, and **Finance** if HAAB has switched it on for trainees. If your employer pays for your training, you will normally see no invoices.

1.3 Finding what you need

If you want to...	Go to
Sign in for the first time	Getting started (see 2.2)
Complete your profile	Your profile (see 4.2)
Register for a programme	Registering (see 4.3)
Read your learning material	Learning materials (see 4.4)
Check in to a class	Checking in (see 4.5)
Take an assessment	Assessments (see 4.6)
See your results and certificate	Results (see 4.7) and certificates (see 4.8)
Use the platform on your phone	Chapter 5
Fix a problem	Chapter 6

1.4 Conventions used in this manual

- **Bold text** is the name of a button, menu item, tab or field exactly as it appears on screen.
- Menu paths are written with an arrow: **Courses → Catalogue** means open the **Courses** menu, then choose **Catalogue**.

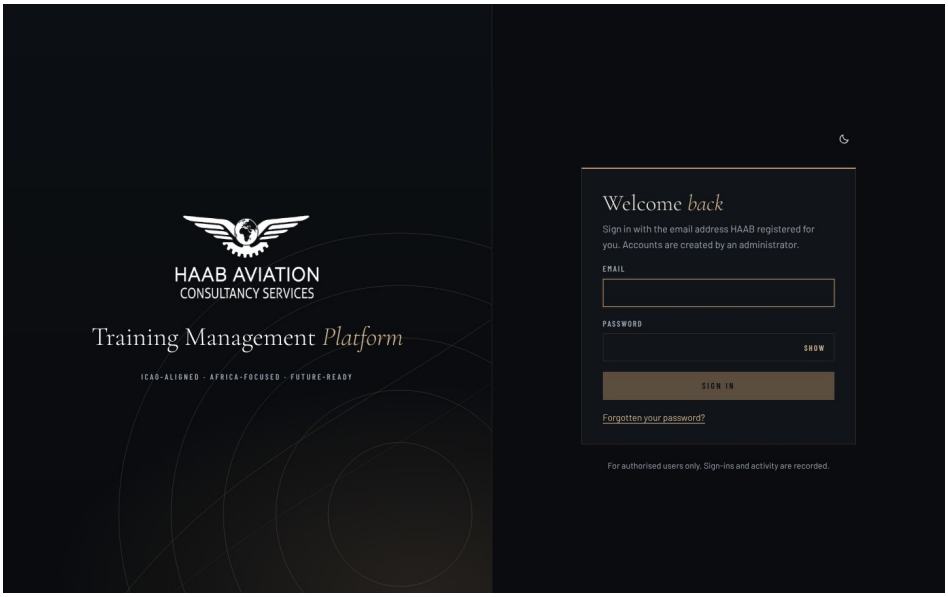

- Coloured boxes carry extra information: a green **Tip**, a blue **Note**, an orange **Important** warning and a gold **Rule** that explains why the platform behaves as it does.
- Screenshots show demonstration data. Names, amounts and dates on your screen will differ.

> **NOTE**
> The platform is invite-only. You cannot use it until HAAB has created your account, or (if HAAB has switched on self-registration) until HAAB has approved your request for an account.

2. Getting started

2.1 Opening the platform

Open the platform address that HAAB gave you in any modern browser (Chrome, Edge, Safari or Firefox). No software needs to be installed. The platform also works as an app on a phone, described in chapter 5.

The sign-in page

2.2 Your first sign-in

When HAAB creates your account you receive an invitation email. The link in it is personal and works once.

1. Open the invitation email from HAAB and select the link in it.
2. Choose a password of **at least 12 characters**. A long phrase you can remember is better than a short complicated one.
3. Select **Set password**. You can then go to the sign-in page and sign in.

> **TIP**
> If the invitation does not arrive within a few minutes, check your spam or junk folder, then ask your administrator to send a new link.

2.3 Signing in each time

1. Open the sign-in page.
2. Type your email address and password.
3. Select **Sign in**.
4. If two-step sign-in is switched on for your role, enter the six-digit code from your authenticator app (see 2.6).

For your protection, sessions end automatically after a while, so you may occasionally be asked to sign in again. The platform also limits repeated sign-in attempts. If you are blocked after several wrong passwords, wait a few minutes and try again.

> **EVERY EMAIL HAS A SIGN-IN LINK**
> Emails from the platform (confirmations, results, certificates, reminders) end with a **Sign in** link to the platform, so you can get straight back in from any notice.

2.4 Forgot your password

1. On the sign-in page select **Forgotten your password?**.
2. Enter your email address and select **Send me a link**.
3. Open the email, select the link and choose a new password of at least 12 characters.

For security the platform always says "if the account exists, an email has been sent", whether or not the address is registered.

2.5 Asking for an account

If HAAB has switched self-registration on, the sign-in page shows **Request an account**. Complete the short form (full name, email, and optionally phone and employer) and select **Send request**. A HAAB administrator reviews each request. When it is approved you receive an email with a link to choose your password, as described in 2.2. Nobody can use the platform before approval. If the option is not shown, HAAB creates accounts for you.

2.6 Two-step sign-in (optional)

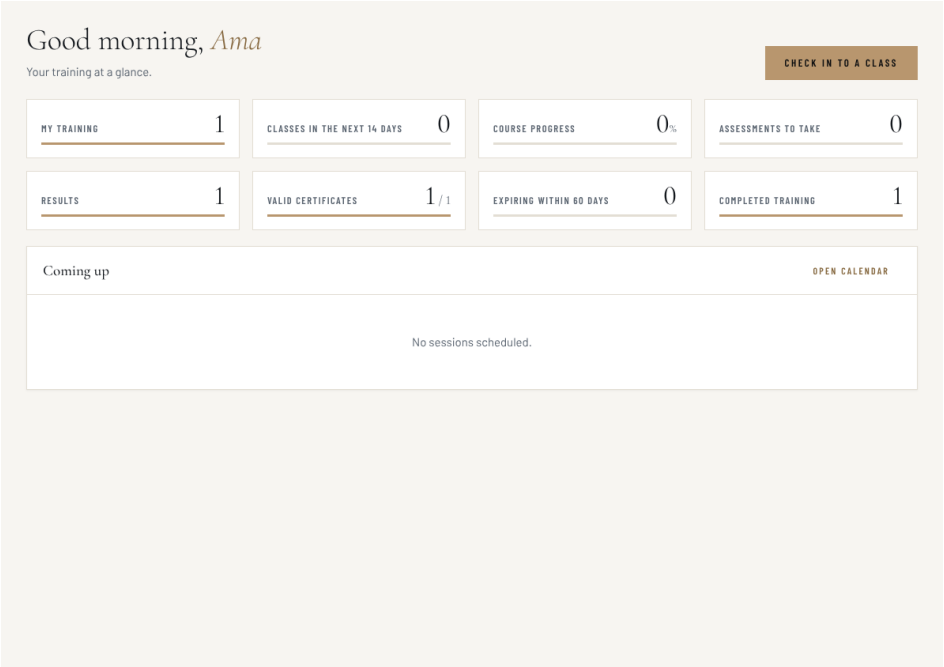

Two-step sign-in adds a second proof of identity, a six-digit code from an authenticator app on your phone (for example Google Authenticator, Microsoft Authenticator or Authy). It is **off by default**. Anyone can switch it on for their own account, and the Super Administrator can require it for chosen roles.

1. Select your name (top right) and choose **My profile**, or open **My profile** from the menu.
2. In the **Two-step sign-in** card select **Turn on**.
3. Scan the QR code with your authenticator app.
4. Type the six-digit code the app shows and select **Confirm**.

To switch it off again, select **Turn off** on the same card. This is not possible when HAAB requires it for your role.

> **IMPORTANT**
> If you lose the phone with your authenticator app, ask a Super Administrator to reset your two-step sign-in (**Reset two-step**). You can then set it up again on a new phone.

2.7 Finding your way around

Your home page

- **To do (top of your home page):** a short list of what is waiting on you, such as places to confirm, attempts to mark, results to finalise or release, overdue invoices or assessments you can take. Select an item to go straight to it. It is empty when you are all caught up.
- **Menu (left on a computer, bottom bar on a phone):** the pages your role may use. Pages you may not use are never shown.
- **Search (top):** finds trainees, courses and certificates by name or number.
- **Moon icon:** switches between the light and dark appearance. The choice is remembered.
- **Bell icon:** your notifications, such as confirmed places, results and certificates.
- **Your initials (top right):** My profile and Sign out.

2.8 Signing out

Select your initials and choose **Sign out**. Always sign out on a shared or public computer.

3. How the platform fits together

A few ideas explain almost every screen. Learn these words and the rest of the platform follows.

Term	Meaning
Category	A group of courses, for example Safety Management Systems or Aviation Security.
Course	A subject HAAB teaches: its code, title, duration, pass mark, minimum attendance and how long its certificate stays valid. A course is the template, not a date.
Programme	One scheduled run of a course: dates, location, instructor, number of places and fee. The same course can have many programmes through the year.
Session	One class meeting within a programme (a day or half day). Attendance is recorded per session.
Enrolment (registration)	A trainee's place on a programme. It starts **Pending** and becomes **Confirmed** when HAAB confirms it.
Assessment	An examination or test linked to a course or programme, made from questions in the question bank.
Result	The outcome for one trainee on one programme, combining assessment score and attendance against the pass rules. It is **Pass**, **Fail** or **Pending**.
Certificate	The numbered, QR-verifiable proof of a pass. It may expire and can be renewed or revoked.
Client (organisation)	An employer whose staff attend training. Trainees belong to a client or are individuals with no employer.

3.1 The life of a training programme

Step	What happens	Who does it
1	The course exists in the catalogue.	Training Administrator
2	A programme is created for dates and a venue (status **Draft**).	Training Administrator
3	The programme is opened (**Open for registration**). Trainees, instructors or client administrators register people. An invoice is raised automatically.	Training Administrator, Trainees, Instructors, Client Administrators
4	Places are confirmed (**Confirmed**). If the programme is full, extra people join a waiting list.	Training Administrator
5	Registration closes, then the programme runs (**Ongoing**). Sessions are held and attendance is recorded.	Training Administrator, Instructors, Trainees
6	Assessments are taken and marked.	Trainees, Instructors
7	Results are calculated, finalised and released.	Training Administrator (a different person from the marker)

Step	What happens	Who does it
8	The programme is marked **Completed**. Certificates are issued to everyone who passed.	Training Administrator

3.2 Programme statuses

Status	Meaning	Can move to
Draft	Being set up. Only staff can see it.	Open for registration, Cancelled
Open for registration	People can register.	Registration closed, Cancelled
Registration closed	No new registrations.	Open for registration, Ongoing, Cancelled
Ongoing	Training is under way.	Completed, Cancelled
Completed	Finished. Cannot be edited.	—
Cancelled	Called off. Registrations are cancelled and unpaid invoices cancelled. A reason is required.	—

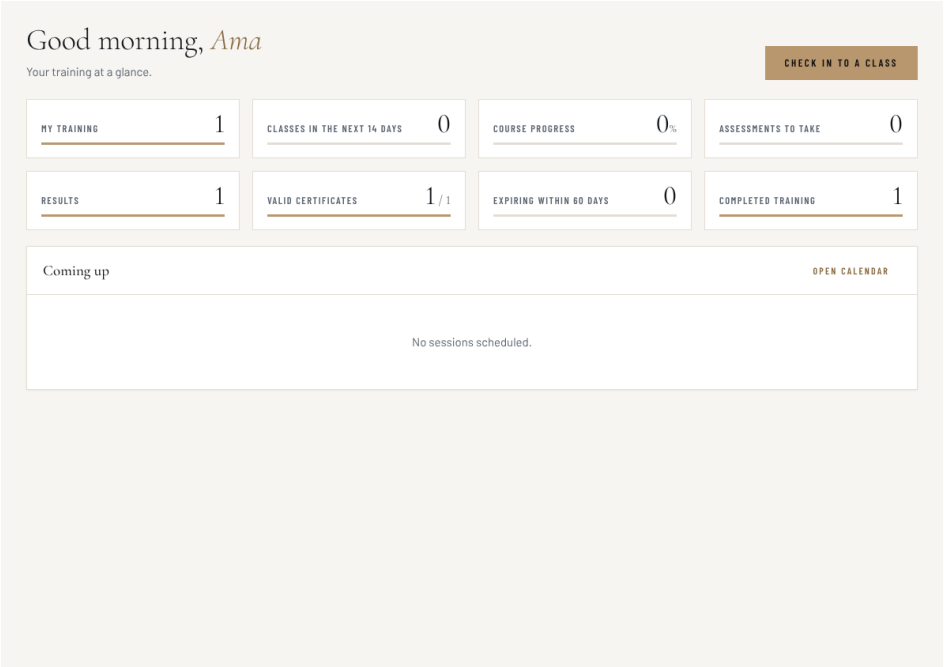

3.3 Enrolment statuses

Status	Meaning
Pending	Registered, waiting for HAAB to confirm the place.
Confirmed	The place is held. The trainee can see the schedule, learning materials and attend.
Waitlisted	The programme is full. If a place opens, the first person on the waiting list becomes Pending automatically.
Completed	The programme finished.
Cancelled	Withdrawn or cancelled, with a reason.
No-show	Did not attend.

4. Trainee guide

As a trainee you see a short menu: **Dashboard**, **My training**, **Calendar**, **Check in**, **Assessments**, **Results**, **Certificates**, **Finance** (if HAAB has switched it on for trainees), **Documents** and **Profile**.

4.1 Your home page

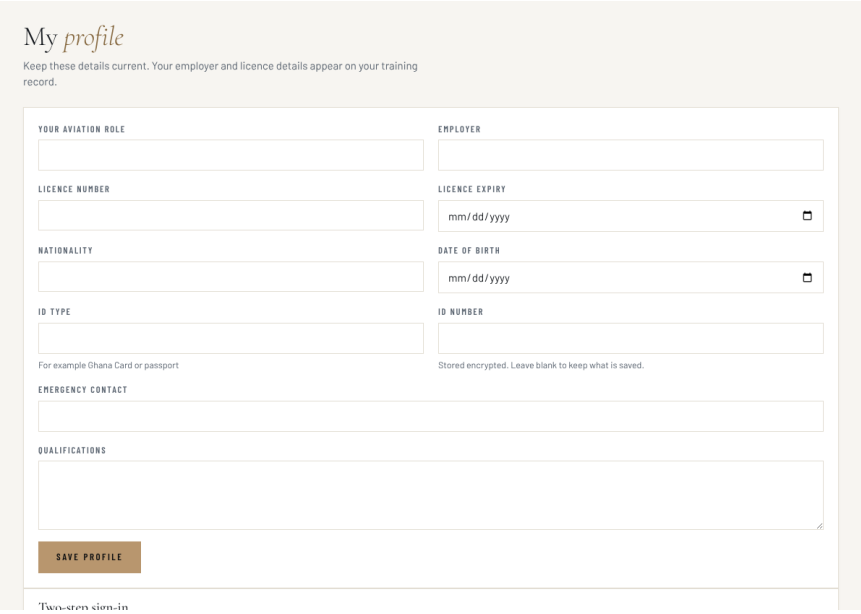

The trainee home page

The tiles show your registered training, classes in the next 14 days, course progress, assessments to take, results, valid certificates and anything expiring soon. **Coming up** lists your next sessions. **Check in to a class** takes you straight to the QR scanner.

4.2 Completing your profile

Open **Profile** and fill in your aviation role, employer, licence number and expiry, nationality, date of birth, ID details, emergency contact and qualifications. This information appears on your training record and helps HAAB meet regulatory reporting.

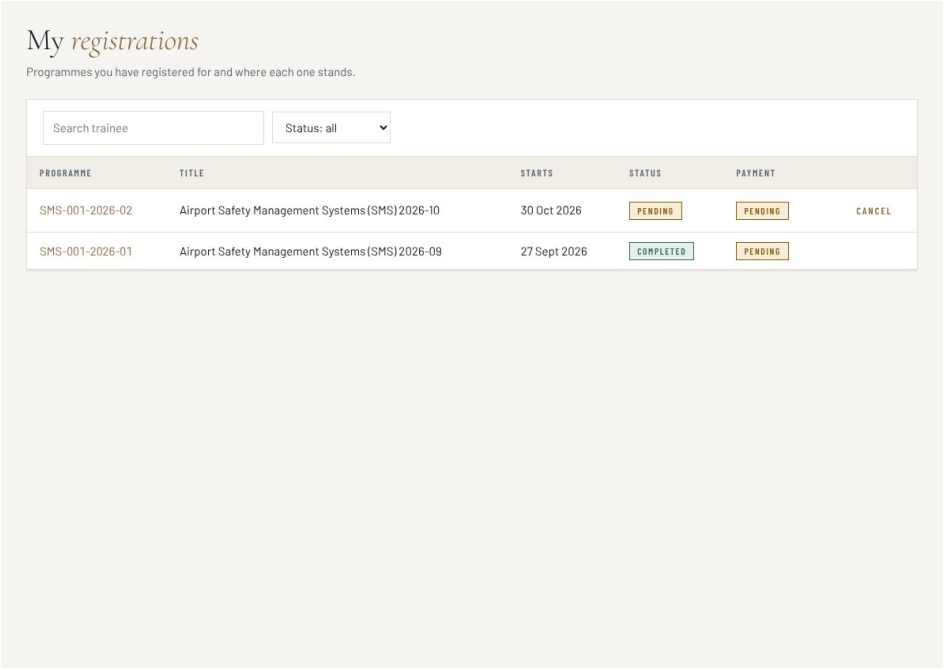

My profile

> **NOTE**
> Your ID number is stored encrypted. After saving, it is shown masked. Leave the field blank to keep the saved value.

4.3 Registering for a programme

1. Open **My training → Browse programmes**.
2. Find the programme you want. Use the search box and the filters if the list is long.
3. Open it and select **Register**.
4. You receive an email confirming that your registration was received. Its status is **Pending**.
5. When HAAB confirms your place you receive a second email, and the status becomes **Confirmed**.

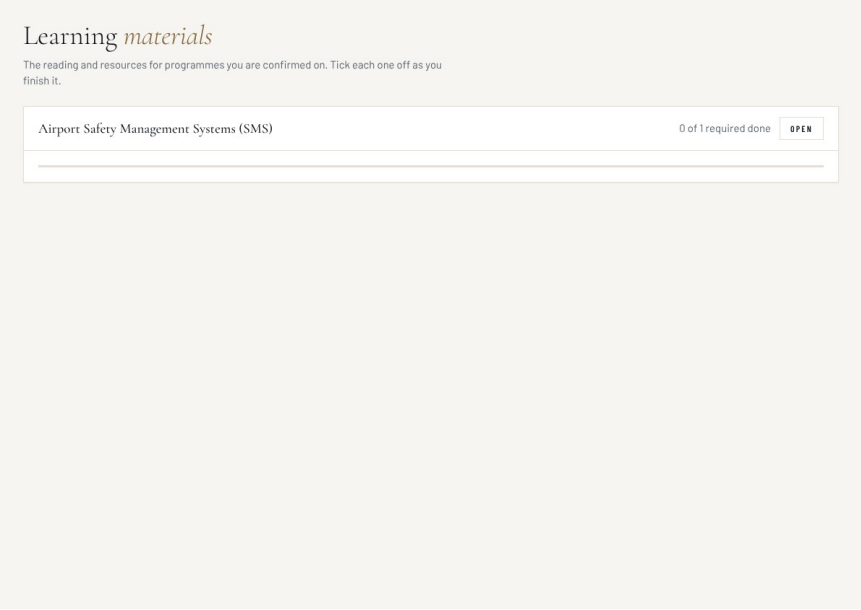

My registrations

- If the programme is full you are placed on the **waiting list** and told so. If a place opens you move up automatically.
- If your employer pays, your registration may be **sponsored** and you will not be asked to pay.
- To withdraw, select **Cancel** on the registration and give a reason.

> **IMPORTANT**
> If HAAB requires payment before confirming a place, your place stays Pending until your payment is recorded. Sponsored places are exempt.

4.4 Learning materials

Open **My training → Learning materials**. Each confirmed programme lists the reading and resources for it. Select **Open** to read an item and tick it off as done. Your progress bar on the home page follows these ticks.

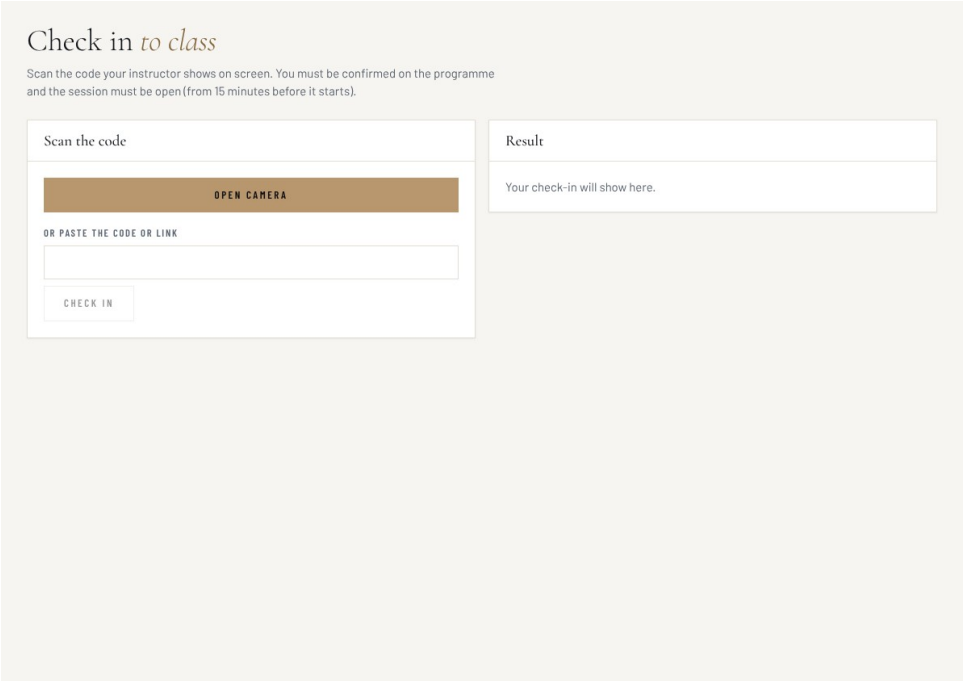

Learning materials

4.5 Checking in to a class

Attendance is part of your result, so check in to every session. You can check in from 15 minutes before the session starts, and only if your place is confirmed.

1. Open **Check in** (on a phone it is in the bottom bar).
2. Select **Open camera** and point it at the QR code your instructor shows on the classroom screen.
3. Your check-in is confirmed on screen under **Result**.

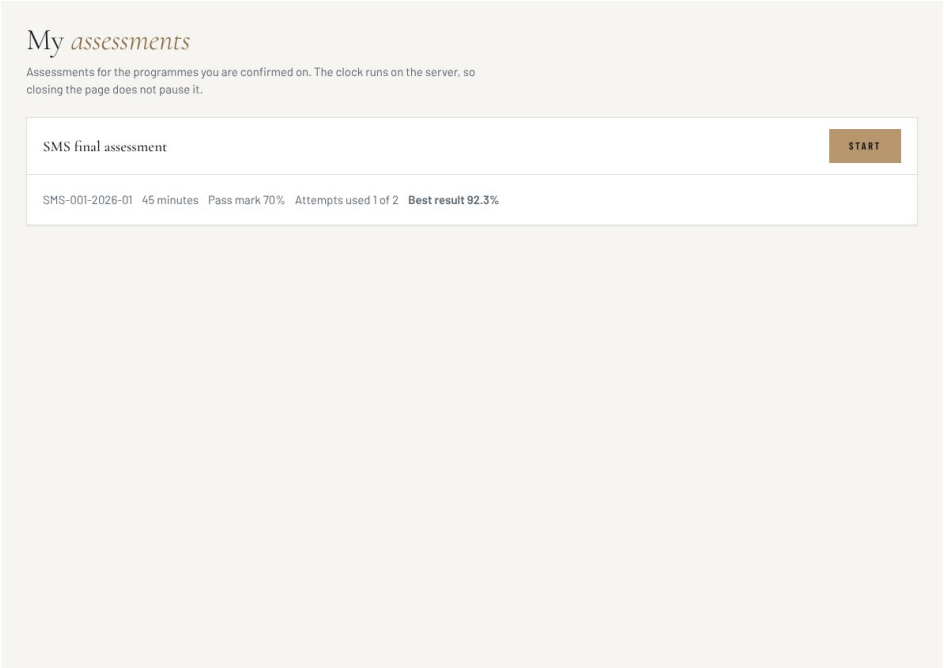

Check in to a class

> **TIP**
> If your camera does not work, paste the code or link your instructor gives you into the box labelled **Or paste the code or link**, then select **Check in**. If you cannot check in at all, tell your instructor, who can mark you present by hand.

4.6 Taking an assessment

1. Open **Assessments**. Each assessment shows its programme, duration, pass mark, how many attempts you have used and your best result.
2. Select **Start** when the assessment is open. If it shows **Not open yet**, it opens at the time shown. You cannot start it earlier.
3. Answer the questions. Your answers are saved automatically as you go, and a countdown shows the time left. A note shows when your answers were last saved.
4. Select **Submit my answers** when finished and confirm. If time runs out, your saved answers are submitted for you.

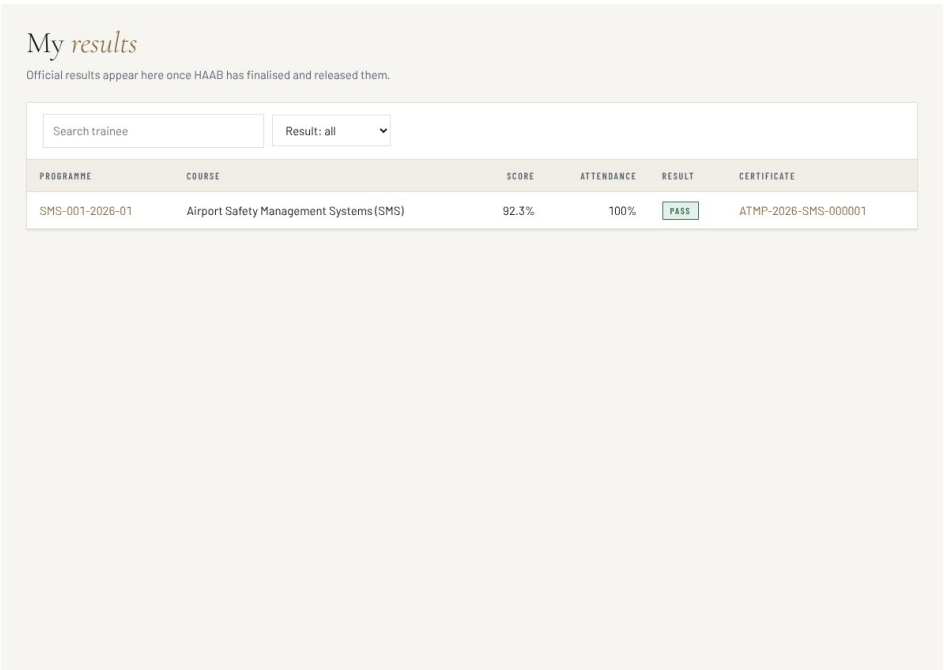

My assessments

> **IMPORTANT**
>
> The clock runs on the server, so closing the browser or the app does **not** pause it. Make sure you have a stable connection before you start.
>
> You may only sit an assessment as many times as it allows (usually once).

4.7 Viewing your results

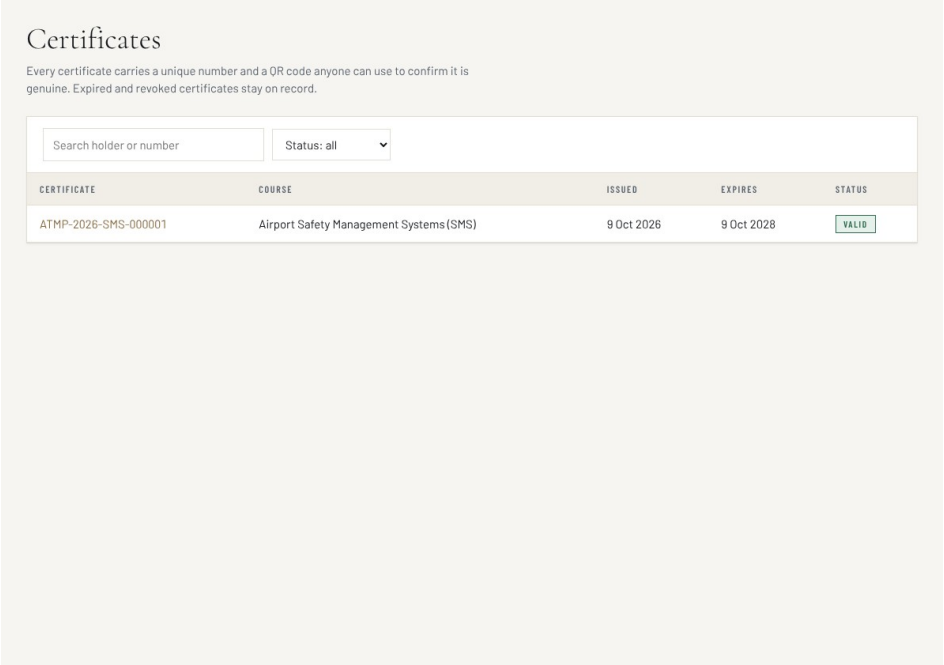

Open **Results**. A result appears once HAAB has finalised and released it, so it can lag behind your assessment. It shows your score, your attendance and **Pass** or **Fail**. A pass shows the number of your certificate.

My results

4.8 Your certificates

Open **Certificates** to see every certificate you hold, with its number, dates and status (**Valid**, **Expiring soon**, **Expired** or **Revoked**). Select a certificate to download the PDF.

My certificates

A HAAB certificate. The QR code and number allow anyone to verify it.

To check that any certificate is genuine, scan its QR code, or open the verification address printed on it. The page confirms the holder, the course and whether the certificate is currently valid, revoked or expired.

4.9 Finance (if enabled)

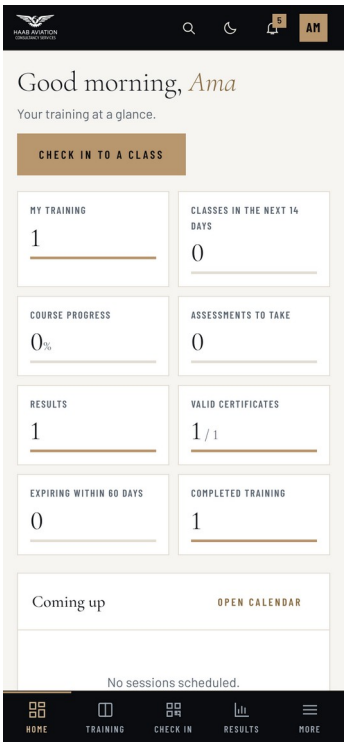

If HAAB has switched Finance on for trainees, **Finance** shows your invoices and receipts. If your employer pays, you will not see invoices. If you cannot see Finance, HAAB has chosen to bill your employer directly.

4.10 Documents

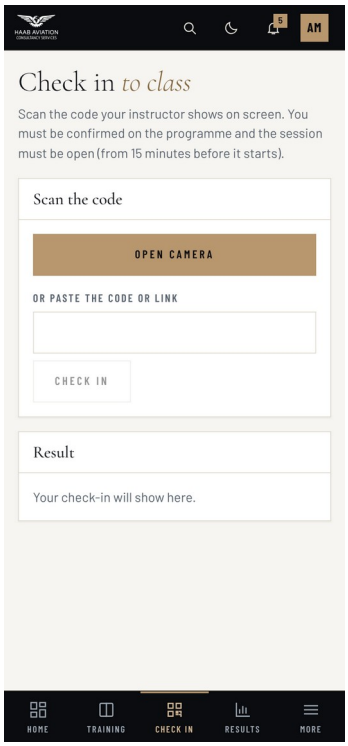

Documents holds files shared with you and lets you upload files that HAAB has asked for, for example a licence copy. Allowed file types and the maximum size are shown when you upload.

5. Using the platform on a phone

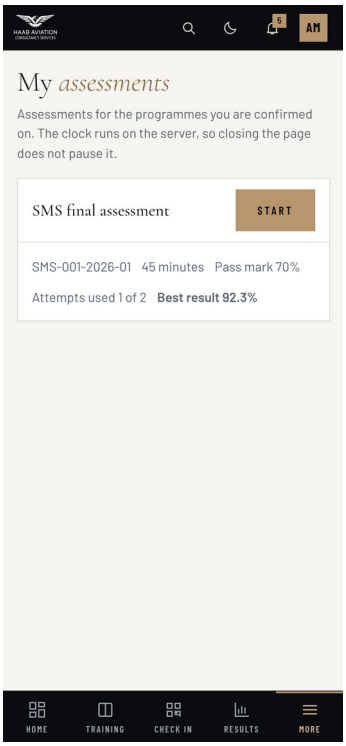

The platform is designed to feel like an app on a phone. The same address works on a computer and a phone, and the layout adapts.

Trainee home

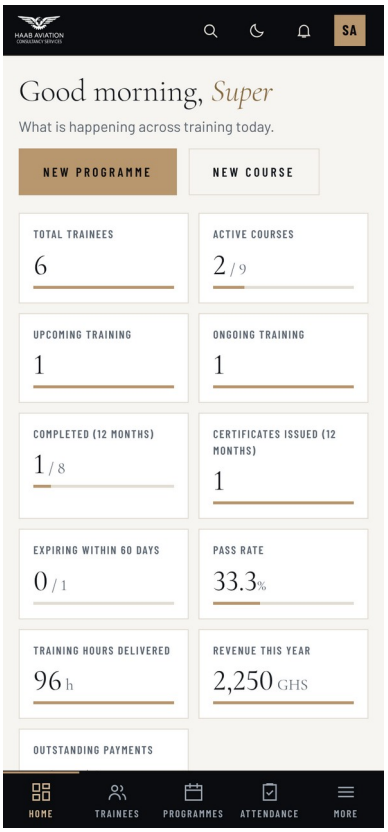

Check in

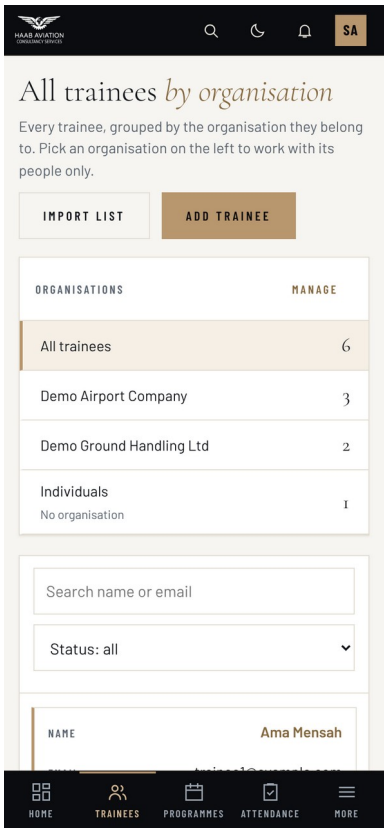

Assessments

5.1 What changes on a phone

- The menu moves to a **bottom bar** with the four things your role does most. **More** opens the full menu.
- Tables become **cards** so nothing needs sideways scrolling.
- Filters and forms open in **sheets** that slide up from the bottom.
- Buttons are larger for touch.

Administrator home

Trainees as cards

5.2 Adding the platform to your home screen

Once added, the platform opens full screen with its own icon, like an installed app, and you do not need to type the address.

Phone	Steps
iPhone (Safari)	Open the platform, tap the **Share** button, choose **Add to Home Screen**, then **Add**.
Android (Chrome)	Open the platform, tap the ⋮ menu, choose **Install app** or **Add to Home screen**.

> **TIP**
> Allow camera access the first time you check in, so scanning works. If you refused it by mistake, enable it again in your browser's site settings.

6. Troubleshooting and questions

Problem	What to do
I did not receive my invitation or reset email.	Check spam or junk. Wait a few minutes. Then ask your administrator to send a new link (**Reset password**), or use **Forgotten your password?**.
The invitation link says it has expired.	Links expire for your safety. Use **Forgotten your password?** with the same email address, or ask your administrator for a new link.
My password was refused.	Use at least 12 characters. A phrase of several words is easiest.
I am blocked after wrong passwords.	Wait a few minutes, then sign in again, or reset your password.
I lost my phone with the authenticator app.	Ask a Super Administrator to use **Reset two-step** on your account, then set it up again.
I cannot see a menu item I expected.	Menus follow your role. If you believe you need access, ask your administrator. For trainees, Finance can be switched off.
My registration is still Pending.	HAAB has not yet confirmed your place. If payment is required first, it will be confirmed once payment is recorded.
The assessment says "Not open yet".	It has an opening time. Come back at that time. Instructors can change it under **Opening times**.
I cannot check in.	Check that your place is **Confirmed**, that the session is within 15 minutes of starting or running, and that you have the right session QR code. Otherwise ask the instructor to mark you present.
I submitted my assessment but see no result.	Results appear after marking, finalising and release. Written answers are marked by hand, so this can take time.
The certificate says Revoked or Expired.	Contact HAAB. Expired certificates can be renewed by attending the course again.
The page looks wrong or will not load.	Refresh the page. Try another browser. Make sure your device date and time are correct. If it persists, contact support with the time and a screenshot.

6.1 Getting help

For help with accounts, programmes or certificates, contact the HAAB training office using the contact details in your invitation email or on your certificate. For faults in the platform itself, contact your system administrator, who can reach the platform's technical support.

6.2 Keeping your account safe

- Never share your password or your six-digit code, and never give them to anyone who contacts you. HAAB staff will never ask for them.
- Use a long, unique password. Consider a password manager.
- Switch on two-step sign-in if you handle results, money or people's records.
- Sign out on shared computers.

7. Glossary

Term	Meaning
Audit log	A permanent, tamper-evident record of who did what and when.
Authenticator app	A phone app that generates the six-digit code for two-step sign-in.
Capacity	The number of places on a programme.
Check-in	A trainee recording their own attendance by scanning the session QR code.
Client	An employer that sends staff for training. Also called an organisation.
Enrolment	A trainee's registration on a programme.
Finalise	To lock a result so it is official. A pass then issues a certificate.
Marker	The person who marks written answers.
Minimum attendance	The percentage of sessions a trainee must attend to pass.
Override	A controlled, recorded change to a finalised result, with a reason.
Pass mark	The percentage score a trainee must reach to pass.
Programme	One scheduled run of a course.
Question bank	The library of reusable examination questions.
Release	Making a marked result visible to the trainee.
Revoke	To withdraw a certificate. It remains on record.
Session	One class meeting within a programme.
Sponsored	A place paid for by a client organisation rather than the trainee.
Waiting list	Trainees queued for a place on a full programme.

Appendix A. Certificate numbers and verification

Certificate numbers follow the pattern **ATMP-year-CATEGORY-serial**, for example **ATMP-2026-SMS-000001**. Each certificate carries a QR code and a verification address of the form `https://<platform address>/verify/<token>`. Anyone can open it without signing in to confirm the holder, course, issue and expiry dates and whether the certificate is currently valid, expired or revoked. Only these facts are shown.
